Attachments:

I just got a bill from Gallatin for \$35,383.79. Last time I checked we were looking at about \$10K to build and only a few hundred per month. Let me know when you have this corrected. The Account Number is 101401-013193.

Pay-Per-Call (900) Services Consumer Rights

The Federal Telephone Disclosure and Dispute Resolution Act provides specific rights to you related to payment for 900 service calls. You should not be billed for services that are not offered in compliance with Federal and Illinois laws and regulations.

You may obtain information about a specific 900 service billed within your Gallatin River bill by contacting the toll free number provided at the end of your bill each month containing the 900 charge in question.

To dispute a 900 service charge appearing in a Gallatin River bill, you must contact the telephone number provided for bill inquiries. You must call this number to get started your dispute within 60 days after the issue date of such charges to qualify for the one-time waiver. Credits resulting from disputed pay-per-call charges that are determined by the local exchange carrier after investigation to have been billed to the wrong telephone number or billed at the incorrect rate shall be considered in error and shall not be considered a waiver. Orally communicating your dispute to the telephone number specified is sufficient notification of a billing error.

If your dispute cannot be resolved while you are on the phone, you will be advised of the outcome of the investigation, within 90 days of your notification of the alleged error. If you request, a written response will be provided. While the dispute is being reviewed, you may withhold payment of the disputed 900 service charge and no collection activity may occur.

If it is agreed to remove the charge from your Gallatin River bill at the time of verbal contact, and if the provider of the service or its agent later determines that the charge is valid, the company providing the 900 service or its agent, may use their own collections process and additional third party collection companies to collect the amount due.

Partial payments made to your Gallatin River bill will be applied first to the basic telecommunication charges, then to pay-per-call charges. Also, on any first notice, charges shall be segregated from the amounts you pay to avoid disconnection. The first notice will state only the amounts excluding pay-per-call charges which must be paid to avoid disconnection.

Failure to comply with these dispute resolution rules by the entity providing the dispute resolution will result in forfeiture of up to \$50.00 per transaction of the disputed amount.

900 services are non-communications services. Your local or long distance service may not be disconnected for nonpayment of 900 charges. Failure to pay legitimate charges, however, may involuntarily result in blocking of your access to these 900 services.

If you want to have your access to 900 services blocked, you can request this service at no charge by contacting your Gallatin River business office. Only one free request to block pay-per-call service is granted to 900 service subscribers. Requests to unblock pay-per-call services must be in writing. After the first request, charges will apply to 900 service unblocking or blocking.

Notice Regarding Release of Your Billing Name and Address Information

ICC regulations require telephone companies to provide your billing name and address to telecommunications service companies if they want to bill you directly for calls you place using their services, or for other order processing and billing related purposes. We can withhold release of this information only if you contact our business office and request to have this information withheld. Requesting non-release of this information, however, will restrict you from accepting collect calls, billing calls to your telephone from a third number, or billing calls to a telephone company calling card.
